# Roll and Stamp Inserts for Education Cubes

## Prep Work:

Print off pictures onto cardstock, cut out, and insert into 1 education cube. If you do not have education cubes, you can purchase them from [www.educationcubes.com](http://www.educationcubes.com) or make your own with dice with a cardboard box (such as a Priority Mail box).

## How to Play:

- Roll the education cube.
- The child names the letter and makes the letter sound.
- The child then uses the Roll and Stamp Graph to graph the results from the roll. We used letter stamps (I pulled out A, M, C, T, P, & F), but you could also use letter stickers. Another option could be to ask the child to write the letter in each space or draw an "x" in the graph.
- Discuss your results afterwards by asking questions such as, "Which letter did you roll the most?" or "Which letter did you roll the least?"
