

# Carrot Poke Page

## How To Use:

- \*Print the carrot poke page onto regular copy paper.
- \*Place on top of carpet.
- \*Using a toothpick or push pin, poke holes along the outline of the carrot.
- \*Place on a window and let the light shine through!

## Variations:

- \*Tape a piece of construction paper under poke page and poke through both pieces. When finished poking holes, remove poke page and place the construction paper carrot on a window to let the light shine through!
- \*Place in a plastic sleeve protector and trace the carrot with dry erase markers.
- \*Place stickers all along the outline of the carrot.
