

From a Seed 20-Grid

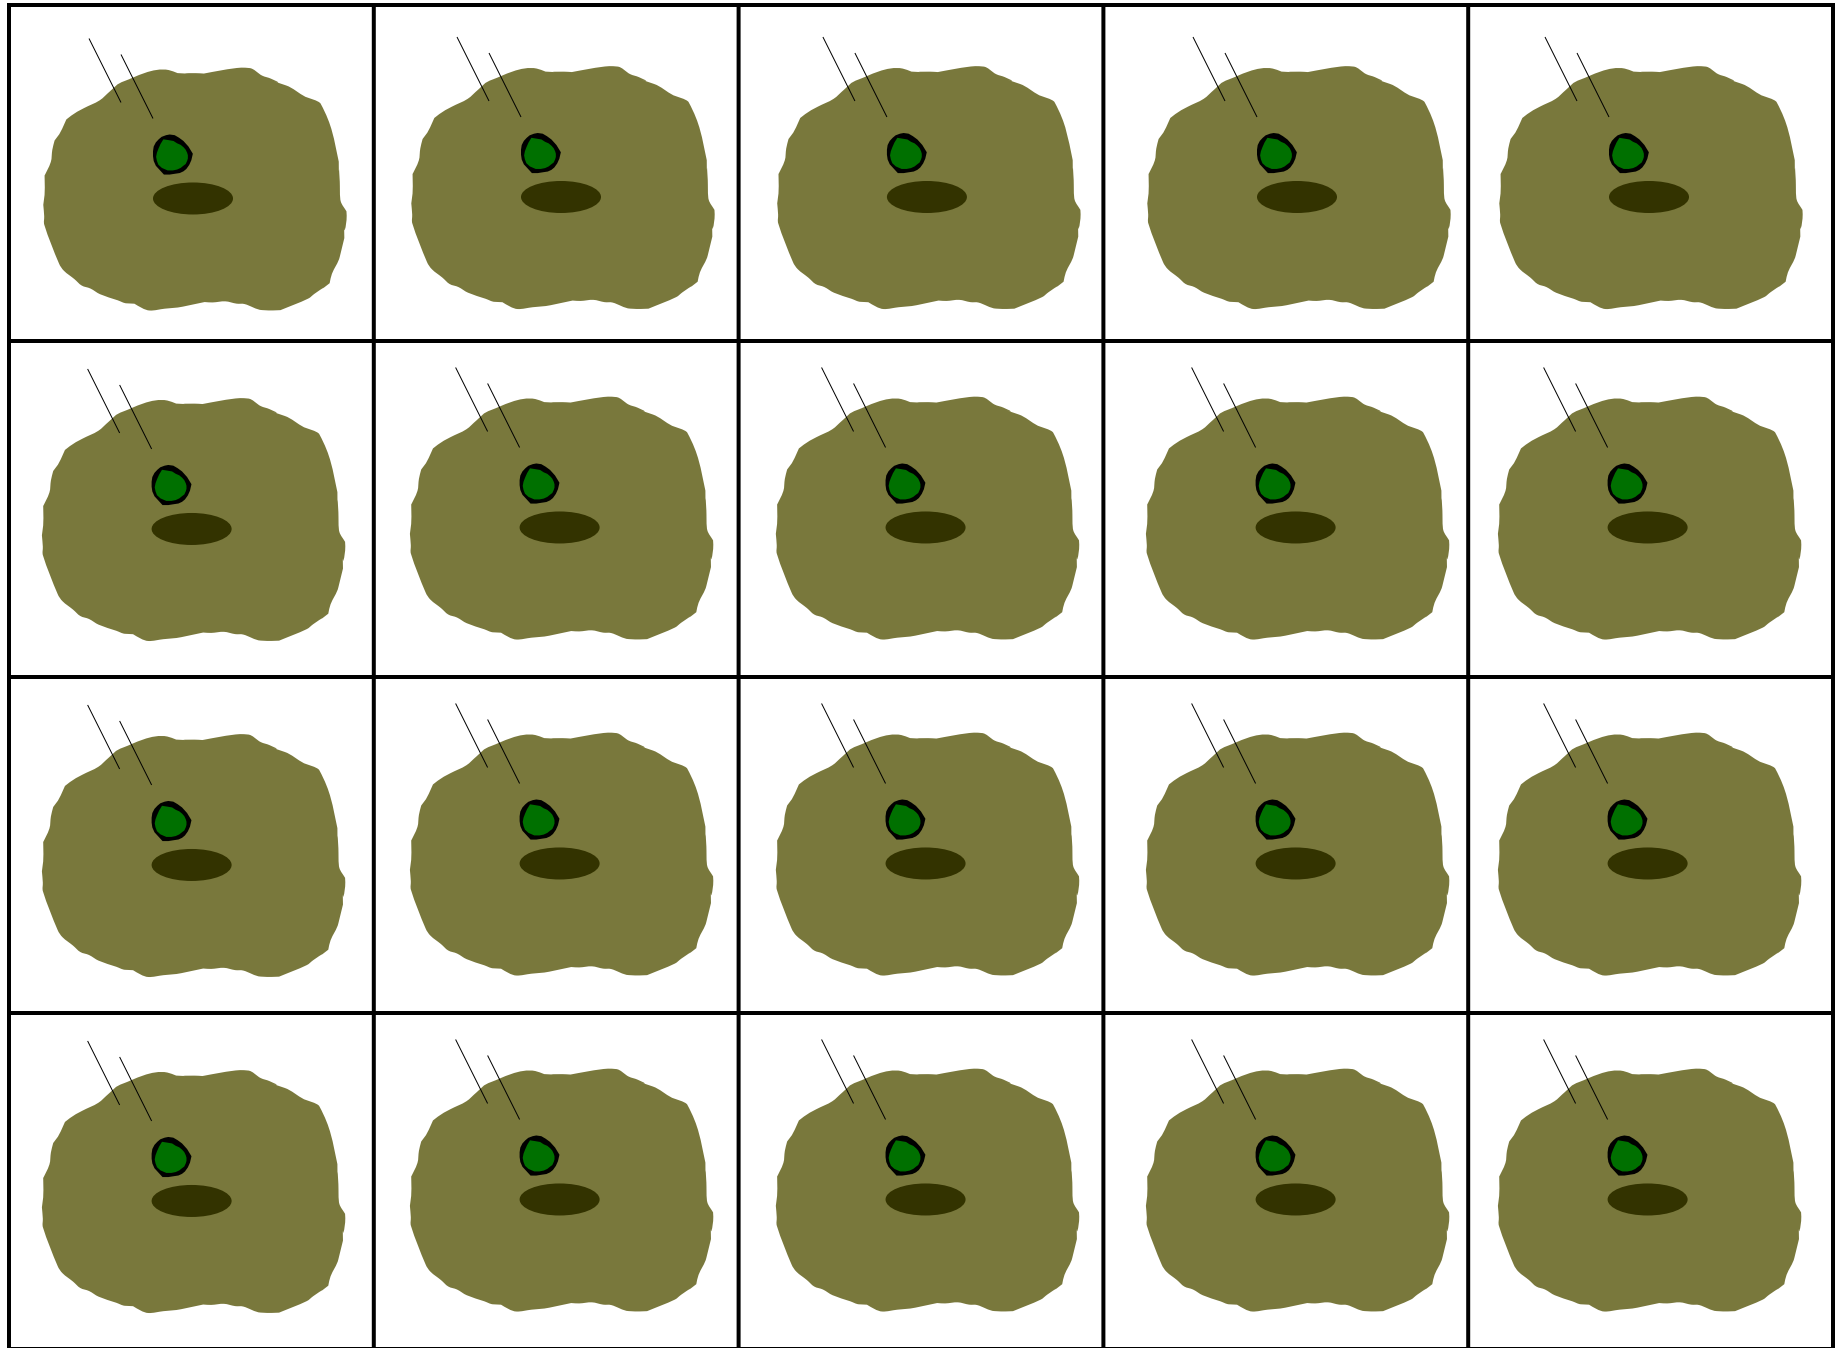

To Prep:

- *Print onto cardstock and laminate for durability. (Print one seed game board and one pea plants page for each player)
- *Cut apart pea plants on dotted lines.
- *Locate a die, labeled 1-6.

To Play: (for 2 players)

- *Each player needs a game board and 20 pea plants.
- *The first player rolls the die, counts the number of dots, and places that many pea plants on top of his game board. For example, if the player rolls a 2, he takes two pea plants and covers up two of his seeds on his game board.
- *The first player to “grow” all of his seeds, wins!

Variations: 1- If only one person is playing, he continues to roll and count the dots, placing pea plants onto his game board until they are all covered.
2-The pea plant page can be used as a cutting exercise before the game is played. Just cut along all the horizontal dotted lines and ask the child to cut along all the vertical lines.
