Cut it Out! Pack

Intro and Instructions

Per my daughter's request (3 years old), I am making some Cut it Out! Packs. You will find four levels: straight lines, curved lines, zig-zag lines, and shape puzzles. My hope is that this pack will grow with her and your child as cutting skills mature.

I desired to create ideas in this pack that had extension activities beyond just cutting practice. Here are some ideas for extending the activities:

- **Cut It Out! Strips-** After the child cuts out all the strips, use the cards as counting cards or create patterns together.
- **Cut it Out! Cutting Cards-** After the child cuts them up, mix them up to create picture puzzles. The pictures help to make the activity self-correcting. Once matched up, the child can glue the pictures down on paper.
- **Cut it Out Shapes-** Once cut out, the child can glue them down to the template to create a picture.

Cut it Out! Strips Level 1 - Cut on horizontal black lines to create cutting strips for child.

After pictures have been cut out, the child can use them as puzzles. Pictures can be glued down onto paper once matched up again.

Cut it Out! Strips Level 2 - Cut on horizontal black lines to create cutting strips for child.

After pictures have been cut out, the child can use them as puzzles. Pictures can be glued down onto paper once matched up again.

Cut it Out! Strips Level 3 - Cut on horizontal black lines to create cutting strips for child.

After pictures have been cut out, the child can use them as puzzles. Pictures can be glued down onto paper once matched up again.

Cut it Out! Level 4- Shapes

Cut out the chocolate Valentine candy shapes.

Glue shapes down in the Valentine candy.

Optional: Cut out this large heart and staple or tape it as a "lid" to your Valentine candy (from pg. 13)!
