

Lesson Plans & Outlines for Set 3 of BOB Books

These lesson outlines go with Set 3, Books 1-8

A few notes from This Reading Mama:

- This is the way *I* would use all the printables. You are by no means required to use them in the way/order that I suggest. I just want to offer it because I am asked so often how to use the printables in conjunction with the BOB Books.
- Several activities are similar in nature between bloggers (for example, two bloggers may have a word search activity.) When this is the case, I have listed both activities in the same slot. You have complete freedom to **choose the one(s)** that you like best for your child.
- **With all these activities, follow the lead of your child. If he shows signs of disinterest or frustration, STOP! Take a break.** You may also need to re-evaluate if your child is ready for these books and activities. I cannot emphasize enough the need to be a student of your student. These activities are meant to be engaging, hands-on and fun. If it stops being that for either one of you, it's time to pull back a little (or a lot).
- While these decodable readers are helpful for beginning readers in terms of phonics and sight words, they provide little opportunity to work on comprehension (that's just the nature of beginning decodable readers). Modeling comprehension strategies while reading quality literature out loud and with your child is also a vital component of teaching reading. You can find teacher/mom-tested read aloud texts and helpful hints for reading aloud to your child on my [Read Aloud Resource Pinterest board](#).
