How to Edit this File

To edit this file:

1. Login to [Teachers Pay Teachers](#). If you don't have an account, you will want one.
2. Download [KG Primary Dots font](#) (free download for personal use) and save to your computer. *If you skip this step, you will not have the tracing font needed for this printable.*
3. Type the learner's name into the gray/blue text box. (see image to the left) Use the color version or the black/white version.
4. The font will only be size 18 when you type it in, but you can format the size by highlighting the name and then hitting Control + E. When I tested it, 72 was the highest font size I could choose from on the drop-down menu, but I could *type in* a font number up to 300.
5. Once the name is the size you'd like, print it out and it's ready to go!
