

# Listen & Color

## 2D & 3D Shapes Assessment Pages

Assess your learners' knowledge about 2D and 3D shapes with these simple Listen & Color pages.

They're easy to use. Learners just need the basic crayon colors and listening ears. (You may want learners to also have 2D or 3D shapes to reference.)

The name and date is included at the top of these pages to make it easier to keep records.

# 2D Listen & Color Clue Cards

Ahead of time, ask learners to gather the colors they need.

Read each card. Ask learners to color in the correct 2D shapes on their Listen & Color pages.

Cut out and shuffle clue cards or simply read them in order.

Color me red.

I have 4 equal sides. I have 4 right (or square) angles. I have 4 vertices. I am a quadrilateral. All my opposite sides are parallel.

Answer: square

Color me orange.

I have 5 sides, 5 angles, and 5 vertices. I am NOT a quadrilateral.

Answer: pentagon

Color me blue.

I have 4 equal sides, 4 angles, and 4 vertices. I am a quadrilateral. All my sides are parallel.

Answer: rhombus

Color me green.

I have no, no angles, and no vertices.

Answer: circle

Color me rainbow.

I have 3 sides, 3 angles, and 3 vertices. I am NOT a quadrilateral.

Answer: triangle

Color me pink.

I have 4 sides, 4 angles, and 4 vertices. I am a quadrilateral with only 2 parallel sides.

Answer: trapezoid

Color me yellow.

I have 4 sides, 4 angles, and 4 vertices. All my sides are parallel.

Answer: parallelogram

Color me black.

I have 8 sides, 8 angles, and 8 vertices. I am NOT a quadrilateral.

Answer: octagon

Color me purple.

I have 6 sides, 6 angles, and 6 vertices. I am NOT a quadrilateral.

Answer: hexagon

Color me brown.

I have 4 right (or square) angles, 2 long sides, and 2 short sides. I have 4 vertices. I am a quadrilateral.

Answer: rectangle

Name:

Date:

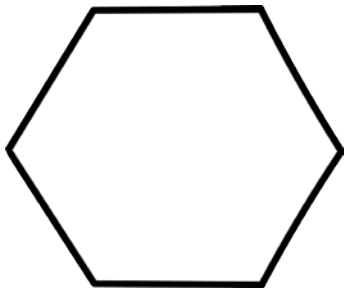

# Listen & Color

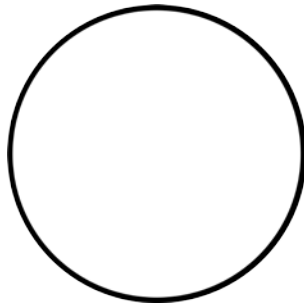

Listen to the clues about each 2D shape. Color the correct 2D shape in based on the clues you hear.

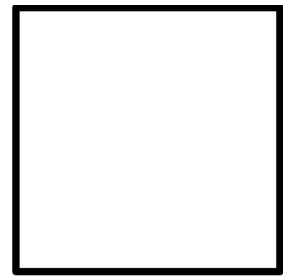

trapezoid

hexagon

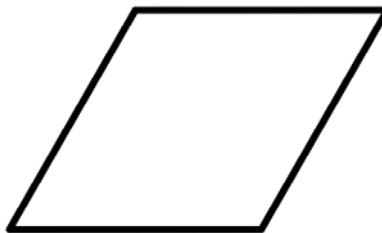

circle

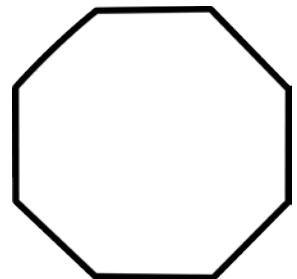

square

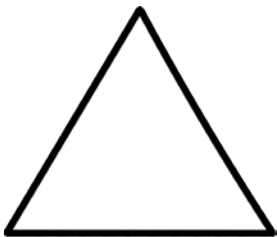

rectangle

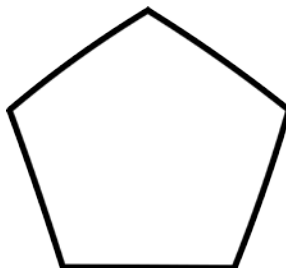

rhombus

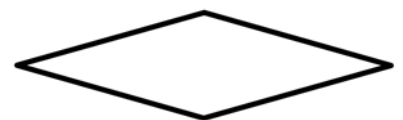

octagon

triangle

pentagon

## 3D Shapes

# 3D Listen & Color Clue Cards

Ahead of time, ask learners to gather the colors they need. It may also be helpful for learners to have 3D shapes that they can reference.

Read each card. Ask learners to color in the correct 3D shapes on their Listen & Color pages.

Cut out and shuffle clue cards or simply read them in order.

Color me blue.

I have 0 flat faces, 0 edges, and 0 vertices. I cannot slide. I can only roll. What am I?

Answer: sphere

Color me red.

I have 6 flat faces, 12 edges, and 8 vertices. I can only slide. All my faces are equal in size. What am I?

Answer: cube

Color me orange.

I have 1 flat face in the shape of a circle and 0 edges. My point is not called a vertex. I can slide and roll. What am I?

Answer: cone

Color me green.

I have 5 flat faces, 9 edges, and 6 vertices. I can only slide. Two of my faces are triangles. What am I?

Answer: triangular prism

Color me rainbow.

I have 5 flat faces, 8 edges, and 5 vertices. I can only slide. One of my faces is a square. What am I?

Answer: pyramid

Color me yellow.

I have 2 flat faces in the shape of circles. I have 0 edges and 0 vertices. I can roll and slide. What am I?

Answer: cylinder

Color me purple.

I have 6 flat faces, 12 edges, and 8 vertices. I can only slide. Four of my faces are rectangles. What am I?

Answer: rectangular prism
