

Printable Gameboards

You may need:

1. A stack of sight word flashcards, math flashcards, a list of states & capitals, or something from your own subject of choice.
2. One die {for shorter boards} or two dice {for longer boards}.
3. A small marker or manipulative for each player.

There are MANY ways you can play:

One idea is to use a stack of flashcards. For example, if you're playing with sight word flashcards, Player 1 picks up the top card and reads it out loud. If he/she is successful, Player 1 rolls the die and moves that many spaces on the game board. Player 2 does the same thing.

If you have players of multiple ages and skill levels, let each player have their own stack of cards. When it's their turn, they pull a card from their own stack instead of sharing a single stack of cards.

Or you can ditch the flashcards and dice to do your own thing! That's the beauty of these printable game boards.

Game boards come in TWO levels & in blackline:

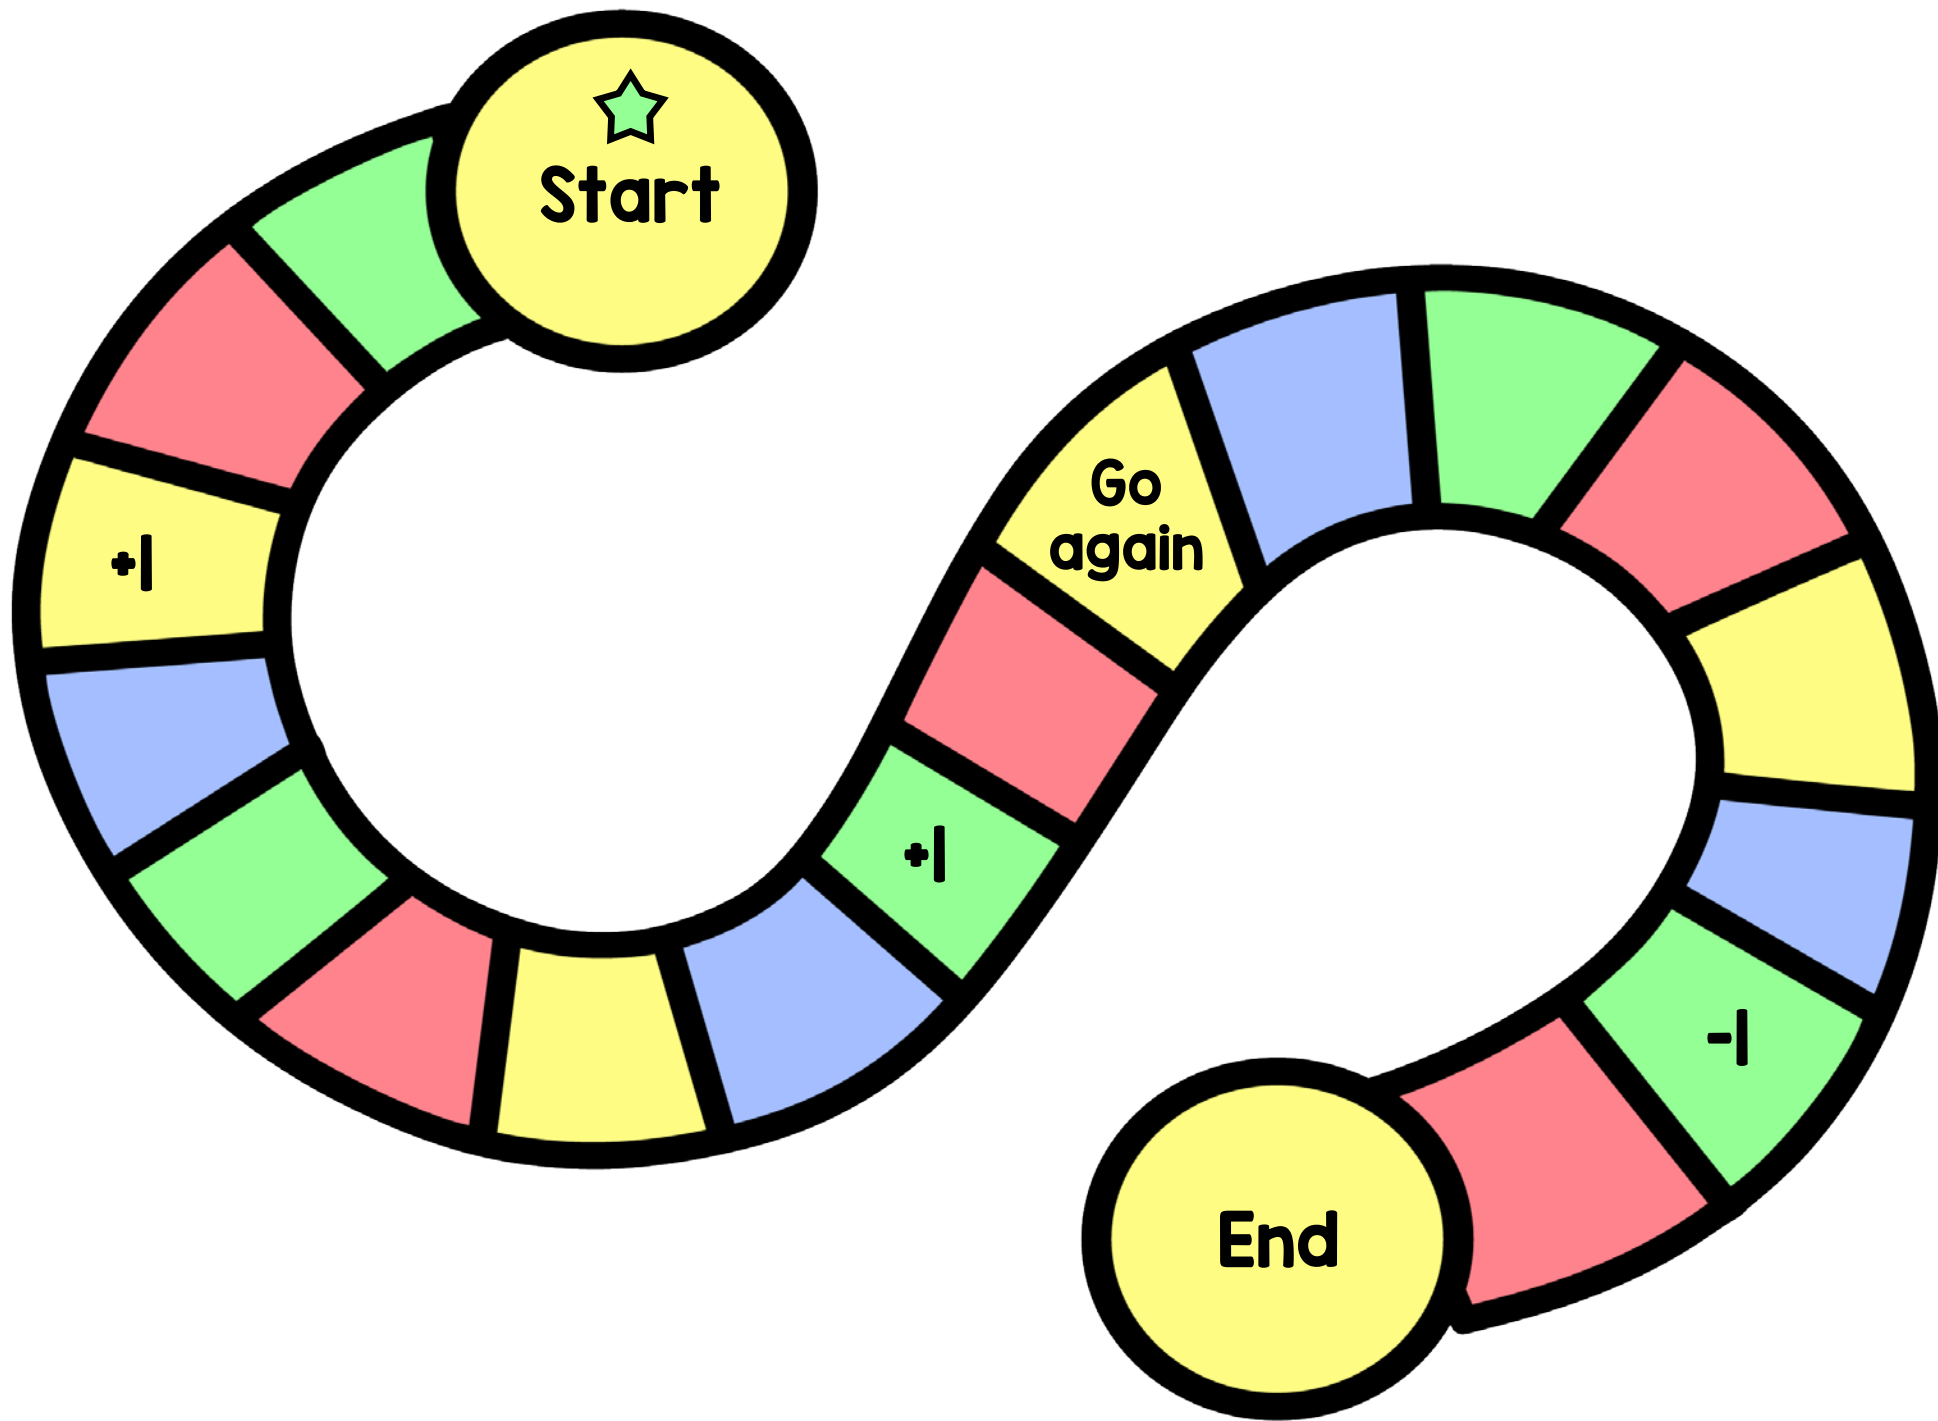

- p. 2 - FIVE shorter game boards, with 13-20 spaces. This is good for younger kids who may not have a long attention span. I recommend only using one die with these games.
- p. 9 - FIVE longer game boards, with 30+ spaces. These may work better for older kids. If you choose to use dice, go with two {or even three}!
- p. 15- Blackline game boards

Terms of Use: This printable pack was created for you to use at home with your child(ren) or with multiple learners in a SINGLE classroom/tutoring setting. Please **do not** share this file between classrooms. Instead, encourage others to [visit my blog](#) to get their own copy. Please **do not** sell, host, share, reproduce, giveaway, or store on any other site (including a blog, Facebook, 4Shared, Dropbox, Amazon Inspire, etc.). Thank you!
