

Number Tracing

pages for numbers 0-10

Years ago, I created [Alphabet Tracing Pages](#) for my little learner. Now it's time for some large tracing pages for numbers.

Each of these Number Tracing Pages for numbers 0-10 includes a hand with counting fingers that shows the number. The spot where the hand is placed on the number is where the learner should start when forming the number.

Please note: Because I bought the clip art, the counting fingers cannot be changed. And because I bought the font, the font of the numbers also cannot be changed. I do, however, offer two options for the starting point for the number 5 found on pages 16 and 30.

Find the blog post [HERE](#).
